Lemongrass Facial - All winter long our skin was exposed to harsh environmental factors on a daily basis. Now spring has sprung and it's time to refresh and unclog the pores with this lemongrass facial treatment customized to meet your individual needs.

Lemongrass is a natural astringent that draws out all deep-settled debris by detoxifying the skin, minimizes the appearance of pores by constricting and tightening and restores your skin, returning it to its own healthy natural complexion.

Facial Includes: Deep pore cleansing with steam, lymphatic and pressure point facial massage, extractions if needed, lemongrass facial scrub, treatment mask, hydrating moisturizer and neck, scalp, hand and arm massage. **50 minute total.**

Massage + Facial Treatment = \$158. Includes:
